Press Note.

The Government of Mysore have directed that motor vehicles, other than transport vehicles registered and ordinarily kept in Madras Province in respect of which quarterly tax has been paid in that province, should be exempted from taxation in Mysore under the Mysore Motor Vehicles and Road Traffic Act, 1944, on transfer to Mysore during the tax quarter. As a similar exemption has been granted by the Government of Madras in respect of vehicles registered and ordinarily kept in Mysore for the half-year for which tax has been paid in Mysore, no refund of any portion of the half-yearly tax will be allowed in respect of such vehicles leaving Mysore on transfer to Madras during the half-year. Consequent on the above orders no short-term licenses will be issued hereafter in respect of motor vehicles brought into Mysore from Madras Province or in respect of those acquired in Mysore and taken to Madras after a temporary stay.

The procedure as laid down in Government Notification, Nos. T. 924—R. T. 56-43-11, dated 28th September 1945 and T. 935—R. 5320 V. KANDASWAMI PILLAI, *Election Commr.*

OFFICE OF THE SUPERINTENDENT, GOVERNMENT PRINTING IN MYSORE, BANGALORE.

Dated 8th January 1946.

To

The Heads of Departments.

Sir,

The following Government orders have been issued from time to time regarding the economical use of paper and other stationery articles :—

1 G. O. No. A. F. 5330-5405—P. and S. 109-41-8, dated 28th March 1942.
2 G. O. No. A. F. 6321-4—P. and S. 44-40-4, dated 15th May 1942.
3 G. O. No. A. F. 2500-69—P. and S. 90 43-44, dated 2nd September 1944
4 G. O. No. M. 6485-560—P. and S. 47-44 1, dated 17th January 1945.

Heads of departments and other officers are requested to give effect to the following suggestions :—

Preparation of copies :—Copies are to be prepared on both sides of paper and the samples sent to the Government Press for obtaining printed copies have to be in a final form, since successive corrections are expensive and delay the work.

2. Matter set up in narrative form occupies less space and therefore tabular statements have to be kept down to a minimum. When tables are unavoidable they are to be condensed and combined so as to make the best use of the paper by prescribing the columns at their narrow limits consistent with the matter to be written therein.

3. Blank portion of pages, complete blank pages, title pages, wide margins on top, bottom and sides may be avoided as far as possible.

4. Matter in the nature of a list should be arranged in double or treble columns so as to make the maximum use of the available space as indicated below :—

Right way

1 Hide	4 Wood ware	7 Hardware
2 Glass	5 Paper	8 Machinery
3 Leather	6 Cloth	9 Wood

Wrong way

1 Hide
2 Glass
3 Leather
4 Woodware
5 Paper
6 Cloth
7 Hardware
8 Machinery
9 Wood

Preparation of forms.—Whenever a form is proposed to be printed indeterminate entries such as remarks, etc., may be avoided.

2. Each form should be designed so as to make use of both sides of the paper.

3. The working instructions printed on forms should be reduced to a minimum if need be, reference to the particular paras of the code or manual may be inserted. The width of the columns should be determined not by the headings but by the maximum width of the entries.

4. With questionnaire forms the space can often be increased by continuing the printed questions across the whole width of the form and omitting the column ruling.

5. Wherever possible, form with blank address printed have to be used and thus the use of separate envelopes avoided.

Economy in printing —The number of copies ordered may be limited to the minimum requirements. When a periodical return is proposed to be printed, the Superintendent, Government Printing may be consulted with regard to the size, type, style, cover, etc., at the earliest possible stage so that the technical considerations may be taken into account from the very beginning.

Rush jobs may be avoided as far as possible since the most economical set up cannot be arranged for at short notice.

Form work.—The practice of asking for foolscap size or bigger sizes of forms may be reduced to the minimum only, convenient and workable sizes being adopted on the basis of actual requirements, Royal, Demy, Crown, etc.

2. Demands for printing the same departmental forms are often received in the Press as a result of the incorrect estimating of the supplies needed. Such demands not only interfere with the printing of the forms of other departments but also entail considerable amount of setting and printing over and over again. The departments are therefore requested to estimate their needs correctly and also maintain sufficient reserve under a datum line so that replenishments are asked for, well in advance of their immediate need.

Sudden requisitions for the supply of forms and registers, not treated as urgent or immediate, often dislocate the work in the printing press. Two months' time is normally needed for complying with the indents. With a view to avoid such difficulties both in the Government Press and in the Government Offices definite months have been fixed for the departments to send their indents and the Government Press to undertake the printing thereof, (*vide* Government Order No. A. F. 6121-4—P. & S. 44-40-4, dated 15th May 1942.) The periods fixed as above have therefore to be adhered to by the departments.

I have the honour to be,
Sir,
Your most obedient servant,

5012 B. KRISHNASWAMY CHETTY, *Supdt.*
